

CHF/JPY Intraday Swing Alert

**BUY CHFJPY 83.78, SL @ 83.42, TP @ 84.37 (35:60
Risk/Reward)**

Yen crosses are among the strongest trending currency pairs in the FX market, and the downmove today provides a great opportunity for re-entering in the direction of the upwards trend. CHF/JPY is found to be the best candidate out of the other FX Yen crosses, with a stronger relative strength in the CHF. A Nested square pattern is set on a major upswing and currently the downmove of the pair is at a price and time hotspot, a high-energy technical level, where we can expect a turn to occur.

Best Regards,
Buena
