SUPER COPIER SYSTEM EA DASHBOARD AND INPUT DOCS

EA

Signal #1/2/3/4/5

ON/OFF: turn on/off
(switch in input parameter)
ON: copy this signal
OFF: not copy this signal

Copy Scale:
Default: 1
This input is used to calculate the copy trade lot size.
Formula:
Copy Trade Lot=Copy Scale * Signal Trade Lot * User Balance / Signal Balance

e.g. Signal balance=$1000, signal trade lot = 0.1
Copy Scale=1, user balance=$1000, copy trade lot is 0.1
Copy Scale=1.5, user balance=$1000, copy trade lot is 0.15

STATUS

Stop DD: 30.00% ($923.34)   Total Profit: 10.52

. **BP: Buy Positions**
. **SP: Sell Positions**
. **TP: Total Positions**
. **BL: Buy Lots**
. **SL: Sell Lots**
. **TL: Total Lots**
. **Profit**

Example:
4 buy positions from Signal#1
13 sell positions from Signal#1
17 total positions from Signal#1
0.04 buy lots from Signal#1
0.13 sell lots from Signal#1
0.17 total lots from Signal#1
$11.32 total profit from Signal#1

Stop DD: max DD (loss) to stop EA
30% is referring to 30% of balance.

Total Profit:
Total profit from all copy trade from all signals

Input Parameters:

- **Symbol Prefix**
- **Symbol Suffix**

Some of the brokers offer non-standard symbol, which is with prefix and/or suffix. Such as "iEURUSD"，"EURUSD_pro". If that is the case, the prefix and/or suffix string is required to add in the symbol prefix and symbol suffix input.

Example:

➢ "iEURUSD"：add i in Symbol Prefix
➢ "EURUSD_pro"：add _pro in Symbol Suffix

Simply leave them as blank if the symbol is standard without prefix or suffix. Noted that the prefix/suffix might be a dot such as "EURUSD."，be reminded to notice that and add it.

- **Stop DD: max DD (loss) to stop EA:**

30=30% of balance. Once accumulated loss (including closed order in loss) exceeds this limit, all order open by this EA will be closed and EA will stop running.

- **Copy Signal#1/2/3/4/5**

True：Copy
False：Not Copy

- **Copy Existing Trades of Signal #1/2/3/4/5**

Existing trades: opening trade(s) on signal before loading EA
True：Copy
False：Not copy

- **Copy Scale of Signal #1/2/3/4/5**

Kindly refer the formula and example of copy scale calculation
