

Calendar Analysis Sunday, May 12 to Friday, May 17

My Comments (Thoughts) More Uncertainty? Great for FX this week. Expect Gaps on Market Open?

“No Deal”!! China-US Trade Deal failed despite Pres Xi positive comments over a week ago. Do we admire Trump for “negotiating” trade deals (NAFTA & China) where other “Politicians” have not had the balls! Pain to the US will be hurtful though. Is it for the better? Will the deficit improve??

For the politically motivated and Anti-Trump obsessives!

Every institution needs a “Shake Up”. Has Trump done that?? Yes! Is it for the good?? History will tell?

Chinese market uncertainty!

Note “Safe Haven” currencies!

Watch SP500 – direct JPY correlation.

CNY Watch Tuesday, FDI & 10 pm (EDT)

My thoughts to focus on Commodity Pairs as preferences this week JPY, AUD, NZD, CAD

Favor CAD & NZD over AUD & will watch JPY very closely too! PA Paramount!

AUD A very interesting week for AUD ?? Very interesting indeed!

AUDNZD Quiet NZD week – will it be a “Safe Haven”???

“Yellow” news Thursday. Watch!

Thrust higher on NZD Rate drop but “recovered” well.

Holding Short from 1.0692 – below R200. Looking for more downside?

Expecting test of WP before more down?

Opens below WP this week. Will it continue down?? AUD weakness?

Is there potential to test 1.500 to 1.04, 1.618 Fibonacci Extension = S100???

Depending on Market Reaction, Sun followed by Mon, Tue, Wed favor NZD??

Concerns about AUD with News this week and a Watch on Home Loans 9.30pm EDT, Sunday.

Many homeowners may be trying to refinance but equity may be inadequate??

Although a “Yellow” News this could be a solid signal for later in the week, Tue & Wed??

Mon NAB Business confidence – Watch as indicator for later announcements.

Parliamentary elections later in week – termed “Irrelevant”! Commented about this earlier.
