Dear Trader:

This is William again! I want to reach out to you with a special trial offer on a service that I now call Scalper101. This might be the game changer in your trading journey.

As you might know my story, I struggled for the longest time to become successful in trading. I tried all sorts of trading methods and I slowly became good. After a few years of trading, something was still missing in my game. I felt it was the consistency and also I always felt that I had to work to make money in trading.

Everything changed for me when I finally met another successful trader who told me that the secret is in automation and I should start exploring the world of automated trading. Because I looked up to him, I began a serious search for solution and started learning how to automate my strategies.

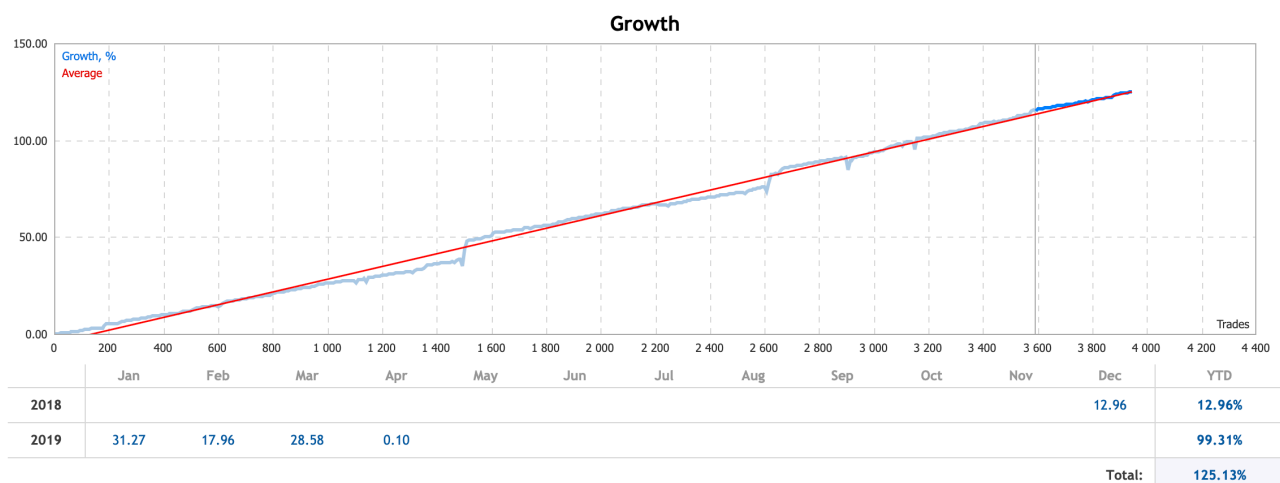

It was then that I realised that automation allowed me to work on my trading business rather than working in the business as a trader. In fact, it's through automation that I am now having different passive income from trading. You can read [more of my journey here](#).

These days I open up my portfolios for retail traders to copy so that they can also automate their income. For some traders, this is an opportunity to diversify their strategies. For some, this is the beginning of a profitable journey. For many new traders, this is the first time they finally make money in trading.

If you have struggles in trading to find that consistency... the type of consistency that will help you pay your monthly bills, then this is for you. If you have always wanted to diversify into different strategies... then this is also for you.

This is a Hyper Growth Strategy that's designed to grow a relatively small portfolio into something sizeable through the use of compounded interest.

This is Scalper101 and at the moment, I am offering a special trial offer for you test out for yourself before making a serious commitment.

You want proof. You have it because I have this Scalper101 account fully verified by MyFxBook. You can also check out another highly reputable website in [MQL5.com](https://www.mql5.com). I believe it's all about full transparency and with the trial offer, it is a no brainer decision.

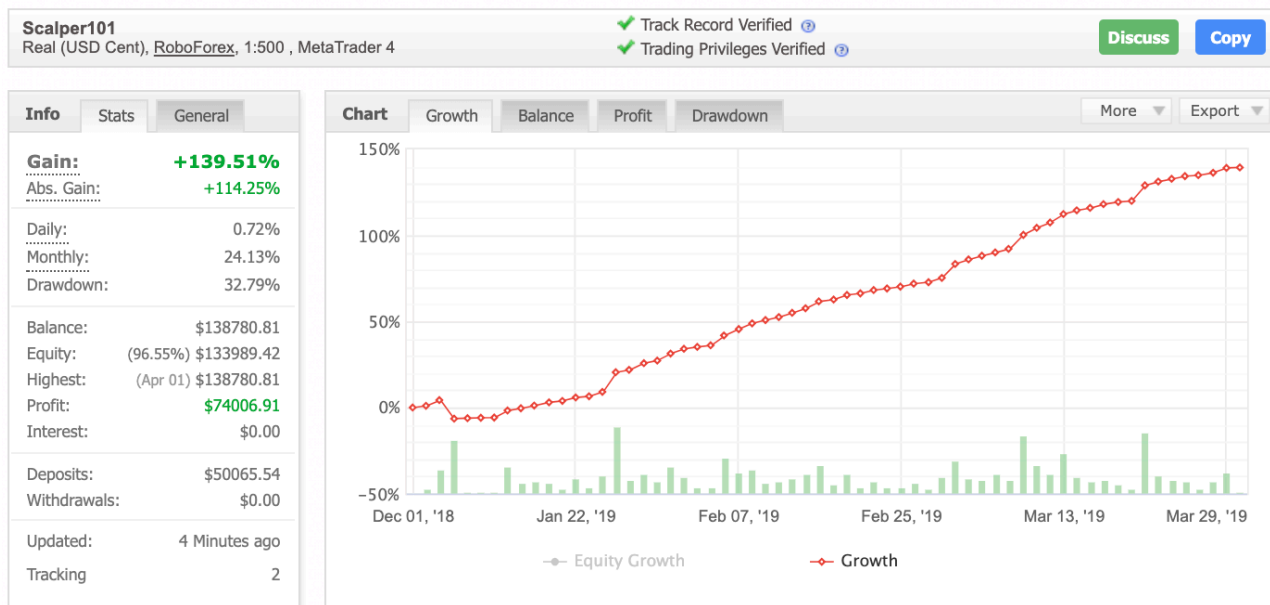

Take the trial. And let's grow together in the same direction.
I will see you on the inside.

Sincerely,

William Tan
