

Opportunity for a technical analyst

HSBC Global Banking and Markets is looking for a Head of Technical Analysis. Based in Global Research, this is an intellectually stimulating and challenging role.

The role:

- Research primarily on FX, FI and commodity markets
- Need to work to tight deadlines
- A regular supply of technically driven trade ideas
- Direct interaction with FX sales and trading located on the trading floor
- Speaking at events as well as the morning meeting
- Interaction with clients of HSBC
- To develop, drive and lead an innovative technical product for HSBC research

The ideal candidate:

- A disciplined approach to technical analysis
- Ability to translate market views into coherent trading strategies
- Outstanding interpersonal and communication skills
- Must be able to interact well with clients and media
- Capacity to handle a dealing room environment
- Working knowledge of Bloomberg and technical trading systems
- FSA registration
- Holder of the STA Diploma, or equivalent qualification, preferred

Please apply with a CV to david.bloom@hsbcib.com and paul.mackel@hsbcib.com
